

# Livebait

FRESH SEAFOOD CUISINE AND PANORAMIC WATER VIEWS

## Your guests will love the panoramic views of docklands waterways & city skyline

With 270 degree views of the CBD and Victoria Harbour, there's no mistaking what's on the menu at Livebait. Feast on fresh seafood – oysters, prawns, mussels, snapper, swordfish, tuna... the list goes on. Livebait's menu with its subtle Mediterranean influence is broken down to reflect the various cooking methods; chargrill, pans & ovens. Your individually tailored menu can have as much (or as little) seafood as you desire.

Sitting out on the balcony positioned right above the water, you can truly appreciate this special location which only enhances your dining experience.

**Corporate Events - Weddings - Product Launches - Birthdays - Private Functions**
